Enhancing
patient experience

We will support pharmacy teams to make every contact with a patient count

We will deliver services that focus on the needs of the individual, tackling health inequalities and ensuring a sustainable health care service for today's citizens

We will enhance patient experience in national clinical priority areas, ensuring pharmacy services are focussed on improving outcomes

We will strengthen the research and quality improvement practice of all pharmacy professionals, ensuring a focus on patient outcomes

Developing the
Pharmacy Workforce

Create an engaging work culture where leadership is empowered at all levels, wellbeing is prioritised, and supporting each other in learning and development becomes the norm

Increase the understanding of pharmacy practice in all settings for early career pharmacy professionals through a multi-sector approach

Enhance services available to patients by increasing capability and consistency of skills within pharmacy teams

Establish a network of consultant pharmacists to provide leadership on clinical priority areas in Wales

Seamless
Pharmaceutical Care

Increase patient access to pharmacist independent prescribers, ensuring the expertise is fully utilised across all care settings.

Optimise the use of medicines and minimise the risk of medication related harm for scheduled care as patients transfer between care settings

Establish direct referral systems to and from pharmacy services, improving efficiencies in service delivery

Continue Transforming Access to Medicines to the most innovative and life-saving medicines including cancer therapies, intravenous antibiotics and parenteral nutrition for patients in Wales

Harnesio Arloesedd
A Thechnoleg
Harnessing Innovation
and Technology

Implement electronic prescribing solutions across all pharmacy settings, including supporting patients to access pharmacy services through the NHS Wales app

Medication related incidents are reported and actioned to improve patient safety

Increase capacity for pharmacy professionals to spend on patient facing activity by introducing efficiencies in the dispensing of medicines

Embed elements of a medicines genomic plan into pharmacy practice

Well-being of Future Generations (Wales) Act 2015

Essentials Guide

Well-being goals

The seven well-being goals ('the goals') show the kind of Wales we want to see. Together they provide a shared vision for the public bodies listed in the Act to work towards. They are a set of goals; the Act makes it clear the listed public bodies must work to achieve all of the goals, not just one or two.

Prosperous

An innovative, productive and low carbon society which recognises the limits of the global environment and therefore uses resources efficiently and proportionately (including acting on climate change); and which develops a skilled and well-educated population in an economy which generates wealth and provides employment opportunities, allowing people to take advantage of the wealth generated through securing decent work.

Resilient

A nation which maintains and enhances a biodiverse natural environment with healthy functioning ecosystems that support social, economic and ecological resilience and the capacity to adapt to change (for example climate change).

Healthier

A society in which people's physical and mental well-being is maximised and in which choices and behaviours that benefit future health are understood.

WELL-BEING OF
FUTURE GENERATIONS

More Equal

A society that enables people to fulfil their potential no matter what their background or circumstances (including their socio economic background and circumstances).

Globally Responsible

A nation which, when doing anything to improve the economic, social, environmental and cultural well-being of Wales, takes account of whether doing such a thing may make a positive contribution to global well-being.

Vibrant Culture and Thriving Welsh Language

A society that promotes and protects culture, heritage and the Welsh language, and which encourages people to participate in the arts, and sports and recreation.

Cohesive Communities

Attractive, viable, safe and well-connected communities.

Transformed Pharmacy Quality Assurance and Technical Services:

- Feature strongly in our long term vision for the pharmacy profession
 - Are critical to our aspirations for health and social care; and
 - Have a role to play not just in delivering health services but also promoting the social, economic, environmental and cultural well-being of Wales
-
